

Friday, October 20, 2023

TIME	EVENT
10:00-10:20	Welcome Coffee
10:20-10:30	Welcome – introduction of the meeting
10:30-11h10	Keynote Speaker: Marlen KNOBLOCH (UNIL, Lausanne) - <i>Metabolic regulation of Neural Stem Cells</i>
11:10-11h30	Selected short talk - Laura BILLON (CRCL, Lyon) - <i>Cooperation of bone morphogenetic protein and estrogens signalling pathways in the dynamics of transformation of mammary stem cells at the origin of breast cancer</i>
11:30-11h50	Selected short talk - Anita KNEPPERS (INMG, Lyon) - <i>AMPKα2 is a skeletal muscle stem cell intrinsic regulator of myonuclear accretion.</i>
11:50-12:10	Selected short talk - Ronan QUENEC'H DU (iGReD, Clermont-Ferrand) - <i>Development and morphogenesis of the mouse extra embryonic parietal endoderm: implication of the transcription factor GATA6.</i>
12:10-13:40	Lunch
13:40-14:00	Aurastem General Assembly
14:00-14:20	Selected short talk - Cristina CUELLA MARTIN (CRCL, Lyon) - <i>Deciphering the crosstalk between the intercellular communication via tunneling nanotubes, the BMP pathway and mammary cell transformation.</i>
14:20-14:40	Selected short talk - Lola LESSARD (INMG, Lyon) - <i>Metabolic defects as a potential therapeutic target in Type I Myotonic Dystrophy.</i>
14:40-15:00	Selected short talk - Hong THU PHAM (SBRI, Lyon) - <i>A novel combination of transcription factors and chromatin modifiers supporting naïve pluripotency in rabbit stem cells.</i>
15:00-15:20	Selected short talk - Gaëtan POCHON (CRCL, Lyon) - <i>Présentation de la plateforme 3D ONCO du CRCL.</i>
15:20-16:00	Keynote Speaker: Céline DELLOYE-BOURGEOIS (UCBL1, Lyon) - <i>Neuroblastoma metastasis</i>
16:00-...	Beer mixer
